SCHAFBOCK DESIGN WORKSHOP

is a solutions oriented, design-engineer contractor, who offer technical, engineering & design consultancy services as well as detailed engineering & integrated production facilities for highly complex tensile engineering projects. We believe that it is not just enough to design & engineer a project for it to be a successful project – one also has to be able to execute the same in a manner befitting the design, hence the term

Design, 
Engineering,
Production,
Integrity.
